# LAVAMAC

## - Your partner in laundry solutions

### INTRODUCTION

Laundry equipment is essential for the successful operation of any ship. Primus is a world leading manufacturer of industrial and professional laundry equipment: washers, dryers & ironers which offers you a complete laundry solution!

Since 1911, Primus has built up a long tradition in manufacturing the laundry equipment and keeps the "quality without compromise" philosophy as their highest standard. Our products are known for service-friendly, a robust character and long life time.

During the years, Primus has developed especially for the Marine a service due to which we can guarantee all necessary support such as: Instant deliveries of parts & machines, special marine voltages, all technical documents & drawings... We also have our own project-department which can support you with a fully detailed design of your laundry.

#### ONE STOP SUPPLIER

Load capacity

Freestanding  
machine

Rigid mounted  
machine

Stackable

Stainless steel

Marine voltage

Easy operation

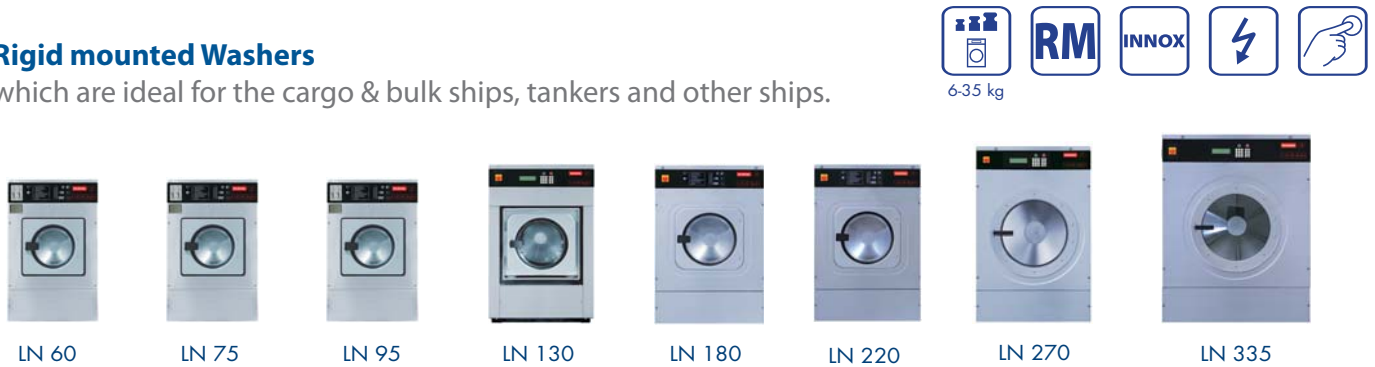

### Small capacity units

can be combined in a stacked marine arrangement which occupies a minimum of space – ideal for crew laundries on passenger ships, cruise boats & off shore applications.

### Rigid mounted Washers

which are ideal for the cargo & bulk ships, tankers and other ships.

### Freestanding Washers

for the cruise-ships & ferries.

### Tumble dryers, rotary ironers and hydro-extractors

## LAVAMAC LAUNDRY PROVIDES COMPLETE SOLUTIONS FOR ALL TYPES OF SHIPS!

### REFERENCES

LAVAMAC has sold more than 2500 machines to ships.

Below you will find an overview of customers who have recently installed one of our machines:
